## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 16-19 and 21-37 are rejected under 35 U.S.C. 102(b) as being anticipated by Cashman (5,458,538). See fig. 5 and 45. The fasteners 45 are considered stowed after the ridge vent is installed on the roof. Regarding claims 18 and 29, see 42. Regarding claim 21, see 44. Regarding claim 24 see 40. Regarding claim 25, because the nails have heads, they are considered removable.

### *Allowable Subject Matter*

Claims 1-15 are allowed. Claims 20, 38 and 39 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The provided references are representative of the state of the art that is applicable to the applicant's invention. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Derek S. Boles at (571) 272-4872 or supervisory patent examiner Josiah Cocks at (571) 272-4874.
